

**CLAIMS**

What is claimed is:

1. An apparatus comprising:

a plurality of light fixture coupling brackets adapted to couple to a light box, wherein said plurality of light fixture coupling brackets adaptable to couple a light bar having at least one light within said light box, said plurality of light fixture coupling brackets adaptable to couple to a removably and adjustable gripping device,

wherein said gripping device is rotatably adjusted around said light box.

2. The apparatus of claim 1, said plurality of light fixture coupling brackets adaptable to couple to an adjustable gripping device.

3. The apparatus of claim 2, said adjustable gripping device further including:

a gripping pin coupled to a rear portion of said gripping device; and  
a first and a second tightening handle opposing one another, wherein  
said first and said second tightening handle adjusts an angle of said adjustable  
gripping device in relation to said plurality of light fixture coupling brackets  
and the light box, said gripping pin is substantially centered on said rear  
portion .

4. The apparatus of claim 2, said plurality of light fixture coupling brackets adaptable to couple to a light bar bracket having at least one light set attaching pin, wherein said at least one light attaching pin couples to a removable light set.

5. An apparatus comprising:

a light bar having at least one light, said light bar including at least one  
removable gripping device, said gripping device including a gripping pin  
substantially centered on a rear portion of said light bar, said gripping pin  
removable from said gripping device, wherein said removable gripping device

removably coupled to a light box having a plurality of expansion rods coupled to a first and second frame.

6. The apparatus of claim 25, wherein said light bar includes at least one light set attaching pin, wherein said at least one light set attaching pin couples to a removable light set bracket.
